## 9 Education and pastoral care

- 9.1 The School educates pupils to understand:
  - 9.1.1 the effect and risks associated with the use of alcohol, tobacco, drugs and substances in relation to their health and well-being and the law; and
  - 9.1.2 possible criminal offences relating to their use.
- 9.2 The School educates pupils about these issues through its PSHE curriculum, by means of personal development courses, by example and by discussion.
- 9.3 The School encourages pupils to discuss in confidence any anxieties they may have about use of tobacco, alcohol, drugs and substances whether personally or in relation to member(s) of the School community, with a member of staff or the School counsellor.
- 9.4 The School is alert to the potential need for early help for a child who misuses drugs or alcohol. A member of staff who has any concern about a pupil's welfare, or considers that a pupil may benefit from early help, should report this to the Designated Safeguarding Lead in accordance with the School's child protection and safeguarding policy and procedures.
- 9.5 The School will take a zero tolerance approach to the Misuse of drugs and substances in School and/or in School time and will deal with such breaches in accordance with the rules set out in this policy, the School Conventions and the School's behaviour and discipline policy.
- 9.6 However, a pupil wishing to seek help for use outside school will be supported by the school and appropriate steps taken to help them avoid future use. This will normally include a testing regime. The same approach will be taken for a concerned friend or parent seeking help on another student's behalf for use outside school.
- 9.7 Parents themselves are asked to inform the Head Master or Deputy Head if they have any reason to think that their son/daughter or one of their children's peers may have been involved with drugs, so that suitable advice, support and assistance can be given.
- 9.8 In the event of disclosure of drug Misuse (whether by a pupil themselves or by someone on their behalf), each case will be given careful consideration in light of its individual circumstances. The Head Master will make a decision as to whether or not the School's disciplinary procedure is to be followed or, as an alternative (and usually only when the drug Misuse occurs outside the remit of this policy), to request that the pupil submits to a

supportive regime which may include counselling, re-education and further testing at frequencies determined by the Head.

## 10 Risk assessment

- 10.1 Where a concern about a pupil's welfare is identified, the risks to that pupil's welfare will be assessed and appropriate action will be taken to reduce the risks identified.
- 10.2 The format of risk assessment may vary and may be included as part of the School's overall response to a welfare issue, including the use of individual pupil welfare plans (such as behaviour, healthcare and education plans, as appropriate). Regardless of the form used, the School's approach to promoting pupil welfare will be systematic and pupil focused.
- 10.3 The Deputy Head (Pastoral) has overall responsibility for ensuring that matters which affect pupil welfare are adequately risk assessed and for ensuring that the relevant findings are implemented, monitored and evaluated.

## 11 Investigation

- 11.1 Every complaint, allegation or rumour or observation of pupil behaviour in relation to tobacco or alcohol or involvement with drugs and substances will be followed up and investigated in accordance with this policy and the procedures set out in the School's behaviour and discipline policy.
- 11.2 If the findings of an investigation support the allegation, complaint or rumour or observation of pupil behaviour, a disciplinary meeting will usually be held, in accordance with the procedures set out in Appendix 3 of the School's behaviour and discipline policy.

### 11.3 Searches for tobacco, alcohol, drugs and substances

- 11.3.1 School staff can search a pupil for tobacco, alcohol, drugs or substances with his/her consent. The member of staff will consider the pupil's age and other factors when determining whether the pupil is capable of giving his/her consent.
- 11.3.2 A pupil may be searched without his/her consent for tobacco, alcohol, drugs or substances in accordance with the School's policy on searching and confiscation (see the procedures set out in Appendix 4 of the School's behaviour and discipline policy).

### 11.4 Testing

11.4.1 A pupil reasonably suspected of unauthorised consumption of alcohol or involvement with drugs or substances may be asked to give biological samples. The reason for this policy is to:

- (a) deter breaches of School discipline;
- (b) identify users;
- (c) absolve those who have been wrongly suspected.

#### 11.4.2 Alcohol

See Appendix 1 for details of the testing procedure for alcohol.

### 11.4.3 **Drugs and substances**

See Appendix 2 for details of the testing procedure for drugs and substances.

11.4.4 Although tests are not infallible, the School will treat a positive test as evidence that the pupil is likely to have consumed alcohol or been using drugs or substances, as appropriate.

## 11.5 **Consent to testing**

11.5.1 The relevant consent to a test is that of the pupil rather than their parent(s), even if the pupil is under 16 years of age, provided that they are of sufficient maturity and understanding and give their informed consent in writing. Where the pupil is not deemed to have sufficient maturity or understanding or to be fit to give informed consent themselves, then consent will be sought from a parent and/or appropriate member of staff or medical expert instead.

11.5.2 The member of staff leading the investigation will determine whether or not the pupil is able to provide this consent and may request the additional opinion of a medically qualified member of staff.

11.5.3 If a pupil refuses to provide a biological sample they will be asked to say why they have refused. The School will be entitled to draw inferences from their response and general demeanour. If a parent's consent is required and they refuse to consent to their child providing a biological sample, the School may draw inferences from the pupil's general demeanour.

11.5.4 Reasonable endeavours will be made, before a biological sample is taken, to notify a parent, guardian or education guardian of the requirement for a biological sample and the reasons for that requirement.

## 12 **Police involvement**

12.1.1 As a Charity, the School must notify the police and/or relevant agencies of actual or alleged criminal activity.

12.1.2 If the School suspects that a criminal offence has taken place in relation to the possession, use or supply of alcohol, drugs or substances, then consideration will be given to reporting this to the police and the relevant local authority.

12.1.3 If the police suspect that a pupil possesses or has stored drugs, substances or related paraphernalia, they may elect to investigate using their own procedures or may pass the matter back to the School to investigate.

12.1.4 If the School seizes a controlled drug, the drug may be destroyed if there is good reason to do so. Otherwise the School will deliver it to the police as soon as reasonably practicable.

12.1.5 The School will retain, dispose or destroy tobacco, alcohol, drugs, smoking equipment and other substances in accordance with the law and recommendations set out in [Searching, screening and confiscation: advice for schools](#) (DfE, July 2022).

### 13 Sanctions

- 13.1 Where a pupil breaches any of the School rules set out in this policy, the Proprietor has authorised the Head to apply any sanction which is appropriate and proportionate to the breach in accordance with the School's behaviour and discipline policy. In addition consideration will be given to appropriate support for the pupil.
- 13.2 The following guidelines as to sanctions will apply:
- 13.2.1 **Tobacco and alcohol:** Sanctions will be applied in accordance with the School's behaviour and discipline policy. For a serious breach or persistent breaches, a pupil may be expelled or removed from the School.
- 13.2.2 **Drugs:** Anyone producing or supplying drugs or substances should expect to be expelled even if they are about to sit public examinations. Anyone possessing or using drugs should also expect to be expelled in accordance with the School's behaviour and discipline policy.

### 14 Training

- 14.1 The School ensures that regular guidance and training is arranged on induction and at regular intervals thereafter so that staff and volunteers are alert to the warning signs of drug misuse, understand what is expected of them by this policy and have the necessary knowledge and skills to carry out their roles and to respond appropriately when pupils seek advice or assistance.
- 14.2 The level and frequency of training depends on role of the individual member of staff.
- 14.3 The School maintains records of all staff training.

### 15 Record keeping

- 15.1 All records created in accordance with this policy are managed in accordance with the School's policies that apply to the retention and destruction of records.
- 15.2 Sensitive personal information about pupils is disclosed only on a "need to know" basis with careful attention to pupils' rights and needs.
- 15.3 The records created in accordance with this policy may contain personal data. The School has a number of privacy notices which explain how the School will use personal data about pupils and parents. The privacy notices are published on the School's website. In addition, staff must ensure that they follow the School's data protection policies and procedures when handling personal data created in connection with this policy. This includes the School's data protection policy and information security policy.

  - 3.2 the pupil will be asked to sign various seals and documents which confirm that the specimens are theirs;
  - 3.3 the pupil will also be asked to sign a form which signifies that they are satisfied with the collection procedure and give consent for the results of the test being made available to the Head.
- 4 **Medical record:** The outcome of the test, whether positive or negative, will not form part of the pupil's permanent medical record.
- 5 **Outcome:** When the School receives the laboratory report:
  - 5.1 reasonable attempts will be made to notify the pupil and a parent;
  - 5.2 if the result is negative, any second sample will be destroyed immediately;
